

Karachi International Water Conference

Sanaa Zulfikar Causer
Director, External Relations

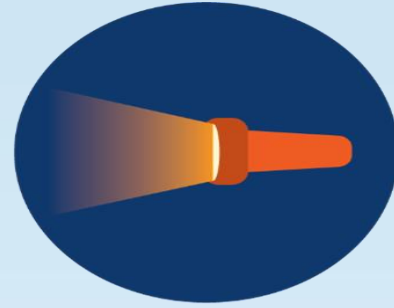

Multipronged Approach

Vision and Mission of Hisaar Foundation

Vision

Solving Pakistan's water problems in a changing environment.

Mission

Strengthening leadership and transformative role in water, food and livelihood security, developing and implementing low-cost innovative water solutions for the poor and marginalized communities, and building capacity for scaling up to meet future challenges.

Karachi International Water Conference

- KIWC began in 2013 as a modest effort to spotlight Pakistan's deepening water crisis.
- It evolved into a powerful and influential platform shaping national and global water discourse, driving policy change and forging collaborations
- KIWC provides a neutral platform and brings together thought leaders, government officials, academics, private sector representatives and global and national experts

Karachi International Water Conference

- Karachi International Water Conferences are:
- **Action-oriented**
- **Solution-driven**
- **Focused on Outcomes**
- **Provide a Roadmap** for Hisaar Foundation every two years.
- Over the years, **many transformative initiatives have emerged** from the **deliberations** of the **Karachi International Water Conferences**.
